

Kwalifikacja cząstkowa na poziomie czwartym Polskiej Ramy Kwalifikacji i europejskich ram kwalifikacji

## **Using the Web Content Accessibility Guidelines (WCAG) standard in creation and adaptation of mobile applications.**

Status: włączona funkcjonująca

Rodzaj: cząstkowa

Kategoria: wolnorynkowe

### **Krótką charakterystyką kwalifikacji**

The holder of the qualification in using the WCAG standard to create and customize mobile applications independently creates or customizes a mobile application accessible to people with special needs, conducts an accessibility check of the application, identifies accessibility problems, and fixes them. In performing the tasks he/she uses the knowledge of the WCAG accessibility standard. Properly selects and uses the software elements supporting accessibility, independently searches for and proposes solutions to potential problems, and uses and supports mobile assistive technologies. The holder of the qualification makes his or her own decisions about the selection of accessibility validation tools. Holding this qualification allows you to both use existing methods and patterns and to explore and implement your own methods and solutions.
